The law limiting the hours that employees shall work is lifted two weeks before Christmas. If we took advantage of this and kept open until 10 o'clock during that period our central location would make it convenient to thousands of customers to do their shopping here during the evenings. Of course, the volume of our sales would be largely increased by extending our selling hours in this way. But it would be a hardship on the general health of our people, and for that reason we will continue to close at the usual hour.

Help us and yourself by shopping as early as you possibly can.
